FARIZAH FARHANA

081358507973 | farizahfarhana.work@gmail.com | https://www.linkedin.com/in/farizarhn/ | https://farizahh.github.io/farizah-resume/

Fresh graduate in Information Systems from UPN "Veteran" Jawa Timur with an interest in Frontend Development and UI/UX Design. Proficient in HTML, CSS, JavaScript, React, Figma, and Tailwind CSS. Experienced in developing various web projects, including internal applications and personal portfolios, and adept at translating designs into responsive and user-friendly interfaces. Possesses strong communication skills, supporting effective teamwork and project collaboration.

Education Level

Universitas Pembangunan Nasional Veteran Jawa Timur - Surabaya, Jawa Timur   Aug 2021 - Oct 2025

Bachelor of Information System, 3.67/4.00

- Thesis: Implementation of CNN Method Using YOLOv8 Architecture to Translate Indonesian Sign Language: BISINDO

Work Experiences

CV FlyHigh Sinergi Indonesia - Surabaya, Jawa Timur   Mar 2025 - Jun 2025

Internship - Frontend Web Dev

- Designed user interfaces and user experiences (UI/UX) for internal web pages using Figma, streamlining internal team workflows.
- Developed responsive website layouts using HTML, CSS (Tailwind), and React, enhancing access speed and usability across devices.
- Translated UI designs into functional and accessible front-end components, ensuring consistency and development efficiency.
- Integrated front-end with back-end systems via REST API and tested data flow, ensuring proper data synchronization and minimizing bugs.

Biro Pengadaan Barang dan Jasa - Sekretariat Daerah Jawa Timur   May 2024 - Jun 2024

Internship - Frontend Developer

- Developed a PHP-based SPPD web application designed to replace manual processes, making document creation faster, more organized, and reducing potential input errors.
- Designed responsive layouts using HTML5, CSS3, and Tailwind, ensuring optimal access across devices and supporting employee efficiency.
- Implemented dynamic PDF printing using Dompdf, enabling users to generate official SPPD documents automatically, complete with designated areas for supervisor signatures.
- Integrated the application with MySQL, ensuring structured data storage and easy management, facilitating document search and record keeping.

Kawan Kerja - Bandung, Jawa Barat   Feb 2024 - Jun 2024

Internship - Frontend Developer

- Developed website and application interfaces using HTML, CSS, and JavaScript, making layouts more interactive and responsive.
- Optimized websites to improve loading speed, reducing user wait time.
- Applied responsive design principles for optimal display across devices, enhancing accessibility and user experience.
- Collaborated with the team to resolve website issues and bugs, ensuring system stability.

Infinite Learning - PT. Kinema Systrans Multimedia, Batam   Aug 2023 - Dec 2023

Mentee Independent Study, Web Development

- Participated in an independent study program on front-end development using JavaScript and React.
- Completed 3 independent projects demonstrating the ability to build functional and responsive front-end applications.
- Applied UI/UX concepts, front-end component development, and basic back-end integration, preparing for professional-level projects.

Unit Pendukung Akademik – Pengembangan Karir dan Kewirausahaan - UPN Veteran Jatim   Feb 2023 - Jul 2023

Staff UI UX Designer

- Redesigned the UPA-PKK website using the Prototype framework, improving user experience and visual appearance.
- Developed interfaces based on UI/UX designs, ensuring consistency and easy navigation.
- Managed UPA-PKK social media accounts, increasing engagement and audience communication.

Fiesto - Surabaya, Jawa Timur   Jan 2020 - Jul 2020

Internship - Web Development

- Studied front-end frameworks such as PHP, HTML, and CSS, strengthening practical web development skills.
- Built a simple landing page website using HTML, CSS, and PHP, enhancing implementation skills from design to development.

Organisational Experience

University Swimming Club - UPN Veteran Jawa Timur   Feb 2022 - Dec 2022

Information and Communication Division

- Responsible for disseminating information from the club management to members of the Student Swimming Club, UPN "Veteran" Jawa Timur.
- Assisted in supporting club activities through media and communication tasks.
- Managed the club's social media platforms, including Instagram and Line Official Account, enhancing engagement and visibility.

University Swimming Club - UPN Veteran Jatim   Jan 2023 - Dec 2023

Treasurer

- Managed the club's financial activities, including tracking income and expenses.
- Prepared and monitored the budget plan for club programs and events.
- Demonstrated analytical skills and attention to detail to ensure accurate financial records and effective budget management.

Skills, Achievements & Other Experience

- **Soft Skills**: Problem Solving, Teamwork, Leadership, Communication, Creativity, Time Management, Attention to Detail
- **Hard Skills**: HTML, CSS, PHP, MySQL, Javascript, React, UI/UX
- **Calorie Journey Website** (2023): Built a responsive web application using HTML, CSS, and JavaScript to help users track daily calorie intake and nutrition goals, ensuring usability across devices and applying basic UI/UX principles to create an intuitive, user-friendly interface.
- **Journey Blood Donor Website** (2023): Developed a responsive web platform using HTML, CSS, and React to allow users to register as blood donors, track donation history, and interact with a clear, user-friendly interface.
- **SPPD Website** (2024): Created a PHP-based web application to manage official travel documents, including drafting SPPD, calculating travel costs, generating dynamic PDFs, and ensuring structured data storage via MySQL.
- **Welder Recruitment Website** (2025): Built a responsive recruitment website using HTML, CSS, and React to streamline welder applications, facilitate the selection process, and provide an intuitive, user-friendly interface for applicants.
